FUNDO AMBIENTAL

Support to Torres Vedras Circular Procurement project

Motivation

The main objective of the project “Circular Procurement in Torres Vedras” is to develop concrete actions of public procurement using Circular Economy principles, according with the programme Fundo Ambiental CIRCULAR-compras públicas, published in May 2018 by the Portuguese Government.

Objectives and Results

The project has several activities, namely the training of Torres Vedras’ technicians and top managers in Circular Procurement; the development of tender documents for three tenders: school meals, catering and professional clothes; inclusion of Circular Procurement principles in the municipality’ procurement strategy; and, dissemination of the results of the project to internal and external stakeholders.
